Advocacy

riac.org.au

RIAC is committed to empowering people with disability, their families, and carers to uphold their rights as members of the community, including access to services and supports that enable full participation.

We offer a variety of free, independent guidance and advocacy services. This includes helping you access activities and services, including the NDIS and related issues, as well as health, education and employment.

RIAC does not directly manage NDIS funds or provide direct care services, but we can work as your advocate if you experience problems with them. Broadly, our expertise lies in guiding and advising you to make informed decisions and connect with the best resources.

Reach out for advice or information via email or call our offices.
